How can Media solve the inter-generational dilemma ?

Copyright © Challenge Optimum S.A. 1994-2016

8

Asia-Pacific  
Broadcasting Union

Societies from all times have implemented inter-generational mutual support.

Modern societies have chosen to outsource the care for the youngers and elders increasing the gap between their insights into common subjects.

General interest decision making requires that all generations be aware of the main society's stakes.

**Media companies should therefore have a clear purpose to reach multiple generations**

Copyright © Challenge Optimum S.A. 1994-2016

9

## Multi-generation reach

**Media consumption habits strongly depends on generations.**

Brosdahl and Carpenter's (2011) categorization of generations:

- Silent Generation (1925-1945)
- Baby Boomers (1946-1960)
- Generation X (1961-1981)
- Generation Y (born after 1981)

## GLOBAL MOBILE MEDIA CONSUMPTION REACHING MILLENNIALS A survey by InMobi Insights, 2013

Survey distributed via InMobi's global mobile ad network between August and November 2012.

7,403 respondents (Aged 20-34 years old) across 14 key markets: China, India, Japan, Korea Singapore, Australia, New Zealand, UK, US, France, Germany, Kenya, Nigeria, and South Africa.

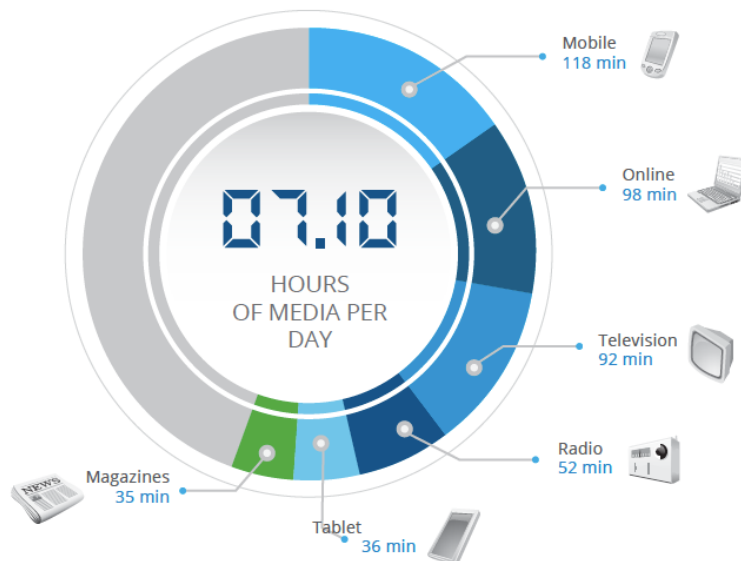

Copyright © Challenge Optimum S.A. 1994-2016

Asia-Pacific  
Broadcasting Union

Q1: In a typical day, approximately how much time do you spend on Media

N = 6,668

Note: Data excludes UK & US as options are not asked in these markets

Copy

Asia-Pacific  
Broadcasting Union

Q2: For mobile activities like surfing the web (excludes calls and SMS), do you typically use your mobile when? While watching TV

54% : mobile device = primary or exclusive means of going online.

64% : multi-task while watching TV, mainly engaged in social activities followed by search, music and shopping.

Copyright © Challenge Optimum S.A. 1994-2016

Asia-Pacific  
Broadcasting Union

## Multi-generation reach therefore requires to be present over any type of platform

Q6: In a typical day, approximately how much time did you spend on your mobile doing the following:

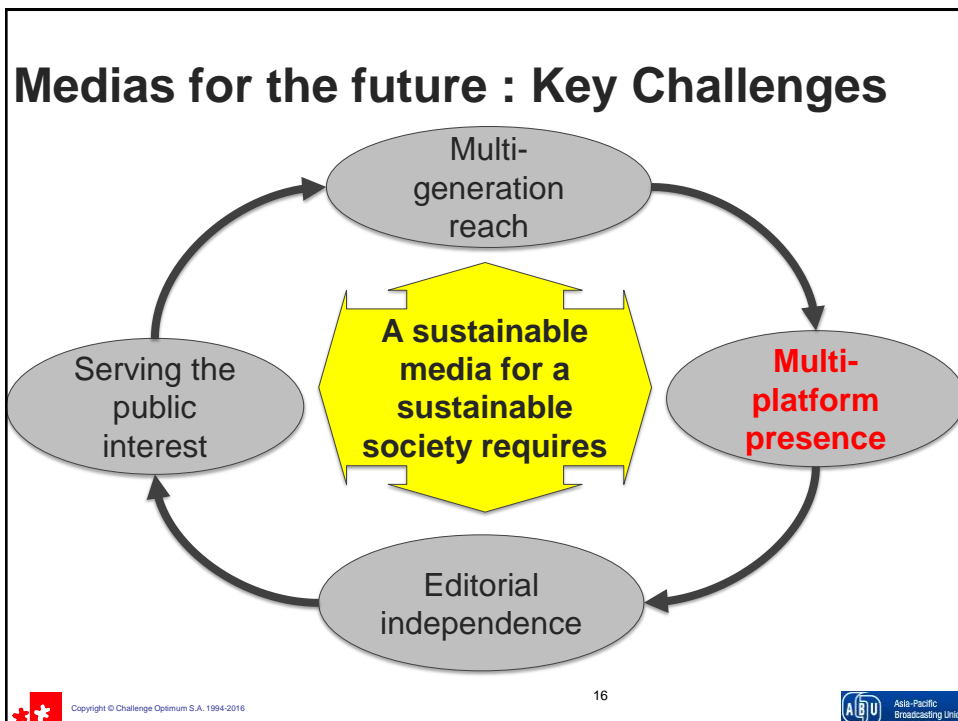

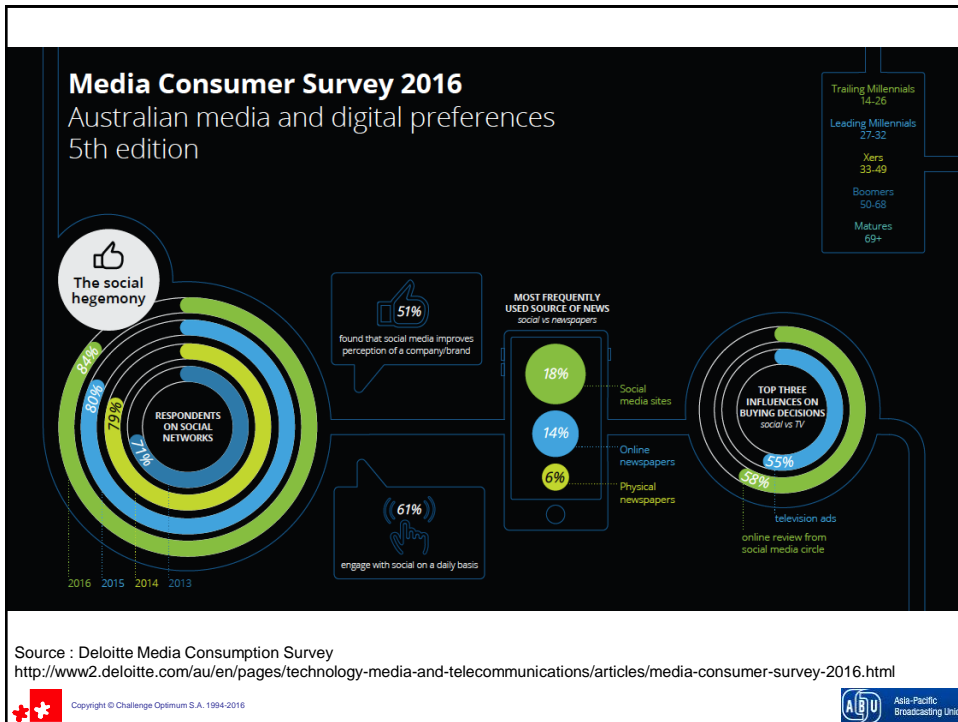

N: 7,403

## Example : Implementation of Multimedia Asset Management

How to retrieve pre/post broadcast media contents to make them available on any end-user platform ?

Challenge : manage

- peak seasonal demands from the audience for specific contents mixing audio, video and data.
- manifold of end-user equipment
- demands from journalists to document their subjects
- input from external contents producers
- operational efficiency

Key success factor : track the **journalists' requirements**

## 26 QUALITY MANAGEMENT SYSTEMS REQUIREMENTS

for the media in broadcasting companies,  
Internet content producer, and the press

\* Fully upgraded under the umbrella of the  
ABU in March 2016

### 3rd party certification : 30 years of experience and benefits

Main interest : get an **independent recognition** of  
the quality of a corporation

The objective is twofold:

→ to benefit from unbiased, external reviews of their  
activities,

→ to create an ongoing process making sure that the  
highest standards of quality continue to be pursued.

30 years later, over one million corporations have their quality  
management system certified every year by 3<sup>rd</sup> party accredited  
bodies according to the well known ISO 9001 requirements.

## Are ISO 9001 requirements enough to certify Media companies ?

30 years of quality improvement and cost reduction results

Car making

Transfer of best management practices ???

Needed input from Media professionals

Media contents making / broadcasting

→ Media management requirements were put together under the umbrella of the Media & Society Foundation

→ Set of complementary Media quality management tools and requirements in addition to those of ISO 9001.

Copyright © Challenge Optimum S.A. 1994-2016

31

Asia-Pacific Broadcasting Union

## ABU mission with respect to ISAS MEDIA 9001 standard

- fostering quality in the media industry, that is to enhance professional standards and practices at the managerial, editorial, production and programming levels
- provide media companies with a methodology and tools for self-evaluation and self-improvement through the design of their own system of quality measurement and improvement in order:
  - to be in compliance with the norms and standards they have voluntarily subscribed to;
  - to prepare for the ISAS MEDIA 9001 Quality Certification, and, if need be, for ISO 9001.

Copyright © Challenge Optimum S.A. 1994-2016

32

Asia-Pacific Broadcasting Union

## Key objectives of quality management in the Media Industry

The adoption of a quality-management system by a media organization (radio, TV, newspaper, magazine, online or other) is strictly voluntary. It should be a strategic decision taken by senior management with the support of staff.

Aim : make sure that a media organization is managed in such a way as to meet the highest quality standards in the following areas:

- Service to its users (audience / readership) and the general public;
- Service to the society in which it operates, notably by promoting the open flow of information essential in a democracy;
- Service to other important stakeholders, including:
  - advertisers; subcontractors;
  - shareholders; Civil society associations; Journalists'
  - unions; public authorities.

## ISAS MEDIA 9001 helps capture market expectations more effectively

How NHK refines & strengthens its position on the market

### Listening to the Public

To reflect the viewers' opinions and requests in its operations, NHK organizes meetings with audiences across the country. In fiscal 2010, 1,541 meetings were held in which 56,000 people participated.

In fiscal 2010, NHK Eureai Center received nearly 4.6 million opinions and inquiries. It delivers a quick response to each of the inquiries and gives the requisite feedback to the relevant departments.

## Ex: how NHK measures “Program’s quality”

### Composition of survey questions

On survey target of 201 programs

- ▽Do you know about this program (Recognition ratings)
- ▽To which degree have you seen this program (Viewing experience rating)

With viewing experience

Knows about the program but no viewing experience

- ▽「Voluntary viewing」or「Viewing with family」(Voluntary viewing index)
- ▽Degree of satisfaction with the program (Satisfaction rating)
- ▽Viewing impression

- ▽Reason for non-viewing

## Reminder regarding the existing certification system

## Consulting objectives, milestones, deliverables

### Objectives

- 1) Have the management team fully committed to the project
- 2) Build the « helicopter view » of the corporate organisation
- 3) Evaluate the effort needed to conform the management system l'effort de mise en conformité
- 4) Involve **key specialists**
- 5) Clarify the **roles & duties** of everyone (Who does what, when, how, according to which rules)
- 6) **Secure** the operations
- 7) Involve every **staff member**
- 8) Show evidence of **continuous improvement**
- 9) Show evidence of good corporate governance

### Milestones & deliverables

### Tools

**Affinity diagram** applied to the building of the functional chart, process diagram, risk matrix, ...  
Time needed : Month M  
Who : Management team  
Effort : 6-8 half day workshops

**PAC® Format**  
« Process Action Chart »  
**Click-N-Manage**  
Time needed : 3-6 months  
Who : operational staff  
Effort : 4h/procedure x 3-4 pers x 40 procédures

**Internal audit**  
**Dashboards**  
**Non-conformance reports**  
Time needed: a few hours / month  
Who : Quality Manager + Management committee  
Effort : 2h-4h/month

**Certification possible 8 to 12 months after launching the project !**

## Services offered by the ABU/Challenge Optimum SA

### Steps ?

#### 1. INITIAL GAP ANALYSIS

Evaluation of the existing management system and practices versus the ISAS BCP 9001:2010 requirements

#### 2. COMPLIANCE BUILDING

Reengineering of the Management System of the media with the objective to comply with the 25 requirements of the ISAS BCP 9001:2010

#### 3. CERTIFICATION

In depth certification audit by an independent and accredited certification body

## Core values of a media organization according to ISAS MEDIA 9001: 2016

- ☐ Service of the public interest
- ☐ Editorial independence\*;
- ☐ Protection of sources;
- ☐ Relevance and accuracy of information;
- ☐ Distinction between opinion and fact;
- ☐ Separation of advertising and editorial content\*;
- ☐ Quality of content other than information;
- ☐ Innovation and creation;
- ☐ Respect of ethical guidelines,
- ☐ Transparency in terms of ownership, shareholding, editorial / political / religious direction, financial reporting and decision making processes;
- ☐ Social responsibility;
- ☐ Disaster and disease prevention;
- ☐ Reflection of diversity of society and types of audiences.
- ☐ Fair representation of minorities;
- ☐ Care for children and other vulnerable types of public;
- ☐ Access to content of visually impaired or hard of hearing people;
- ☐ Women empowerment;
- ☐ Gender equality;
- ☐ Technical quality;
- ☐ Multi-platform access to content;
